

REDi Solutions

are used by more than 100 banks and credit unions to reduce losses from financial crimes, improve user experience, and manage regulatory compliance.

REDiCardControl

REDiNotify

REDiVerify

REDiNotify empowers Financial Institutions to deliver email, voice, text and mobile app notifications that can be fully integrated across multiple systems, including core, loan, and teller platforms, card, and CRM platforms, among others.

CAPABILITIES

Account Takeover Schemes

Payment Alerts

Loan Payment Due

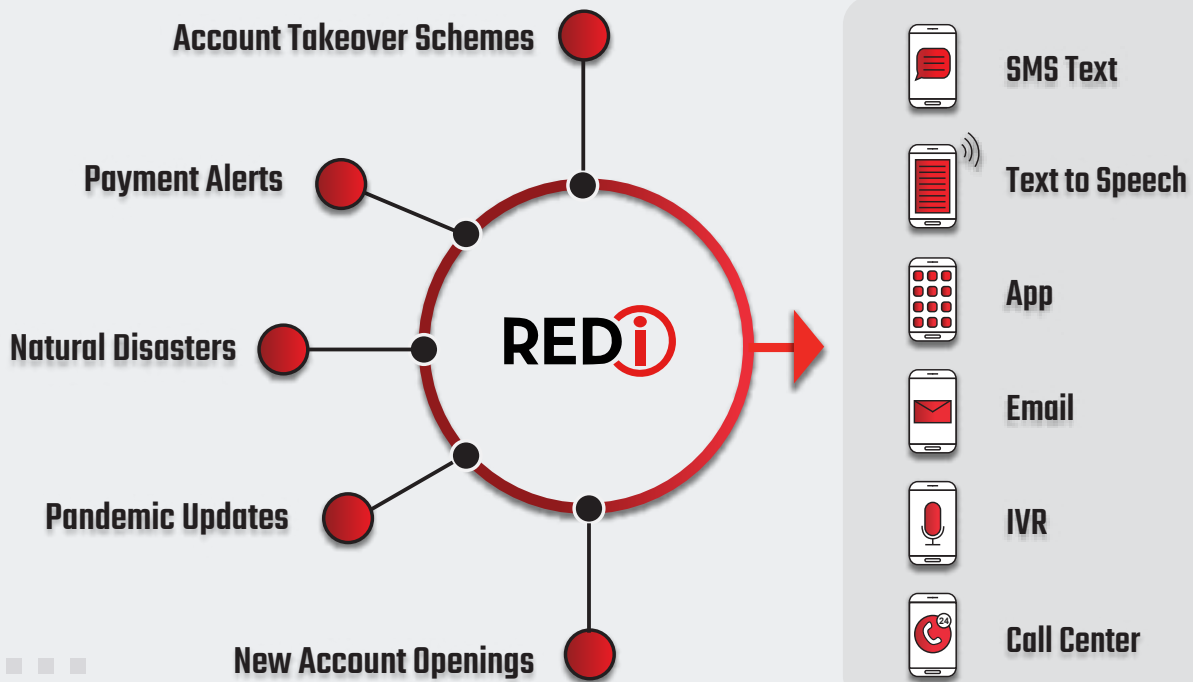

Natural Disasters

New Account Openings

Pandemic Updates

Users today want a highly-personalized banking experience and expect their financial institution to promptly alert them to changes to their accounts. Deliver on those expectations with actionable, real-time, event-driven, on-demand alerts that allow you and them to react quickly and effectively to changing circumstances.
